Helix Electric Recognized for “Outstanding Safety Achievement” by Naval Facilities Engineering Command

November 21, 2014

P-500 Littoral Combat Ship Training Facility project team receives NavFAC Challenge Coin for exemplary safety efforts

SAN DIEGO, Calif.—November 21, 2014—Leading electrical contractor, Helix Electric, announced today that the company is a recipient of a Naval Facilities (NavFAC) Engineering Command Challenge Coin for “Outstanding Safety Achievement” at the P-500 Littoral Combat Ship Training Facility worksite in San Diego, California. NavFAC Command Safety Program Manager, Mr. William Garrett, CSP, presented the medallion after a tour of the project facility. Challenge coins are given by military personnel to recognize special accomplishments by the recipient.

Helix Electric’s award-winning safety initiatives produce demonstrated results, including one of the lowest accident rates in the nation. “At Helix, safety is not just a statistic or policy,” said Frank McDaniel, Safety Director. “It’s an action, an activity and a core value that permeates the entire organization...” At Helix Electric, innovative approaches to safety program design and implementation ensure high accountability and the reduction of risk for all employees.

The P-500 Littoral Combat Ship Training Facility project is the design and construction of a centralized training facility to house Littoral Combat Ship simulators supporting Navy platforms at the Naval Base San Diego.

About Helix Electric

Helix Electric, Inc. is a privately held corporation with locations nationwide. The company is an award-winning electrical contractor and an industry leader specializing in design-build and highly complex electrical projects throughout the United States for nearly 30 years. Helix Electric’s services encompass all facets of construction including mission critical, data center, medium voltage power distribution, renewable energy, commercial, industrial, mass transit and rail, and high-density residential. Helix Electric delivers high value to clients through consistently providing cutting-edge product innovations. For more information visit: www.helixelectric.com
